About Cosmos

Cosmos Surfaces established as Cosmos Granite & Marble is a 2nd generation family owned company established in the United States in 2005. Cosmos began as a small local distributor of natural stone with a 15,000sqft showroom and quickly grew into a national distributor with over 15 showrooms nationwide.

Cosmos was established with the aim of providing its customers with superior quality products at competitive prices and unparalleled service. Quality and Service are the founding principles of the company and are given the highest regard in every decision we make. Our founding principles combined with our highly trained and capable team members have helped Cosmos become one of the leading national distributors of surfacing materials and complementary products in the industry.

Cosmos' highly trained and capable international team aid in procuring our high-quality products while eliminating the struggles of product shortages, price fluctuations and international logistics, thereby keeping all our products within local reach of our customers. Cosmos also continues to embrace the change in technology and industry trends through continuous investments in software, personnel, equipment, new product offerings and additions to existing product lines.

With thousands of products available across multiple product lines and in endless colors and sizes, Cosmos is here to help you create and realize the project of your dreams. With our superlative service and unrivaled product selection, you are sure to Experience the Difference. Experience Cosmos.

The Making of Cosmos

Established in 1991, DS Granites (DSG) is a granite processing company based in Southern India. DSG procures and processes raw blocks of natural stone from all around the world including Brazil, India, Norway, Finland, Ukraine, Saudi Arabia, South Africa, Angola and Madagascar, as well as many other thriving nations and regions. The Company is equipped and attuned to meet any quantum of demand, with its precision Italian machinery and revolutionary German technologies coupled with a superior standard for excellence. It is with DSG's immense support that Cosmos turned into reality and flourished on inception. To this day, the 2 companies continue to support each other.

The Growth Story and Developments

Cosmos Surfaces was established in the United States in 2005 as Cosmos Granite & Marble. Since then, we've grown exponentially with the undying support of our team members, suppliers and vendors as well as the loyalty of our customers.

What started off as a small business in a 15,000sqft warehouse has today, come to be regarded as one of the finest national distribution companies for natural and manufactured stone as well as other complimentary decorative building products in the industry.

We've built a strong reputation by developing lasting relationships with our customers and bringing a wide variety of premium products to the US market - all at affordable prices and reliable service.

Starting in 2019 with our newly renovated national headquarters in Washington, all our showrooms across the nation are being remodeled to improve and enhance customer experience. Also, in keeping with the promise to our customers, we're continuously adding new offerings to our tile, natural stone and quartz lines. Mariner - Cosmos' premium sink collection was introduced in 2019 and 2020 will see the launch of Opulith - Cosmos' Porcelain slab collection.

Mission

To provide customers with a wide range of high-quality surfacing products at competitive prices coupled with unparalleled service.

Vision

To become the preferred and most accessible supplier in the industry for all types of surfaces and complimentary products.

Values

Cosmos' values are driven by the commitment to its team members, customers and the environment. At Cosmos, we believe in:

- | | |
|--------------------------|--|
| 1. Working as one Team | 8. Respect for every Individual |
| 2. Knowledge and Passion | 9. Product Innovation |
| 3. Empathy and Humility | 10. Continuous Improvement |
| 4. Customer Commitment | 11. Being open to change |
| 5. Value Creation | 12. Diversity Acceptance |
| 6. Unparalleled Service | 13. Giving back to the Society |
| 7. Quality Product | 14. Celebrating and Enjoying the Journey |

Culture

Passion, Humility, Empathy, Knowledge, and Diversity (PHEKD) form the DNA of Cosmos. While Knowledge is what gives us the confidence, Passion for our products, **service and customer satisfaction** is what drives all of us here at Cosmos. **Humility** keeps us grounded and **Diversity** helps us understand people better and be **Empathetic** towards every individual.

From our products and services to our customers, trade partners and team members, building a better and beautiful world is a crucial part of our culture. At Cosmos, we strive to enforce our founding values into everyday practice.

At Cosmos, **Collaboration and Teamwork** are just as essential as **Respect and Inclusivity** of one another within and outside the organization. **Energy** and the zeal to learn and perform are of utmost importance in our creative and challenging field.

Our strong Values aid in driving the company Culture and our dynamic team towards our Vision.

Cosmos Natural Stone

Natural stone is the oldest and the most sought-after building and decorative material in the modern world. Natural stone exudes a sense of timelessness while preserving and protecting history that is centuries old. It is beautiful, unique, extremely durable, and eternally elegant. Whether it's a Granite, Marble, Quartzite, Onyx, Agate, Crystal, Soapstone or a Semi-Precious stone, natural stone is second to none when it comes to beauty, endurance and reliability.

Cosmos proudly offers over 500 varieties of all types of natural stones including granites, marbles, quartzites, onyx, agates, crystals, soapstone and semi-precious stones that are responsibly sourced from across the world. Many of these stones are also offered in multiple thicknesses and surface finishes to suit every style, need and desire. The most common thicknesses are 2CM and 3CM and the most popular surfaces are polished, honed or leather finished.

Natural stone like any surfacing product requires maintenance but, stands out as a unique piece unlike anything anyone has ever owned or created. It can be used anywhere on the interior or exterior of a building including around fireplaces, for flooring, tabletops, countertops, wall claddings, fountains/ water features, feature walls, building facades, steppingstones, etc. The uses and applications of these unique creations are limited only by our imagination.

Stone: Luce Di Luna

Countertop: Calacatta Santa

Cosmos Quartz

The most revolutionary surfacing material of our time was achieved by combining the latest polymeric technology with natural quartz crystal. Quartz is the second most abundant mineral in the Earth's crust, the fourth hardest mineral known to man currently, and an essential ingredient in Granite. This groundbreaking technology produced a surfacing product that was superior in strength, low on maintenance and most importantly, easy on the pocket.

Cosmos offers over 65 different designs/ patterns in its Quartz Collection and is proud to offer the **largest Quartz slabs** available in the industry today with average sizes going to **138" x 75"**.

Cosmos also accommodates cut-to-size projects for commercial developments and offers an industry leading residential and commercial warranty that will give you peace of mind. Most Cosmos Quartz offerings are available in multiple thicknesses as well to optimize product usage.

Cosmos Quartz offers the perfect selection of beautiful and innovative designs, that are moisture and stain resistant and highly durable for both residential and commercial projects. The mixture of hi-tech organic polymers and natural quartz contribute to the anti-bacterial properties on these surfaces. Cosmos quartz is most used as a countertop choice. With no minimum purchase quantity, high quality standards, competitive pricing and best in class service, Cosmos Quartz will be a reliable investment for any home, office or interior living space.

Cosmos Tile

Tiles have consistently been the most sought-after decorative materials for centuries now that adds life, color, beauty and functionality to living spaces and enhances design while meeting specific comfort, performance and budget needs. While tile was invented centuries ago, technology today has provided us with the access to develop limitless options in colors, sizes, styles, shapes and textures. Tiles now, can be made from different materials including but not limited to ceramic, porcelain, natural stone, glass and metal. Barring modern tile innovations, the traditional forms of tile are composed majorly of natural products like clay, minerals and water or just natural stone.

Cosmos offers over 600 beautiful varieties of ceramic, porcelain and natural stone tile in different sizes, colors, shapes, textures and configurations to suit every budget and design need. Cosmos Tile offers a variety of large format tiles measuring up to 19"x38" for both commercial and residential use with most offerings being rated for commercial use. Cosmos also complementary mosaics formats that create jaw-dropping backsplashes and feature walls.

Tiles are beautiful, versatile, low-maintenance decorative materials that can transform a living space when used correctly. Their dense bodies are moisture, stain, and odor resistant. They are also environmentally friendly and don't burn or emit toxic fumes. The Cosmos Tile selection has been carefully crafted and continues to be updated and upgraded with new offerings to satisfy any design palette, whether it is rustic, industrial, chic, contemporary or pure modern.

Sinks

Sinks are the most seen home improvement items in any living space. Whether it is a kitchen, bathroom or outdoor barbecue in a home, or a bar in a restaurant. The most essential item these spaces need are sinks. Sinks are made of different materials and are different in dimensions and depths but, serve similar purposes as a plumbing fixture.

Cosmos offers numerous choices in sinks to ease the selection and design process for the homeowner and designer and enable them to visualize the sink with the counter they have chosen. Cosmos offers 2 sink lines – Sync-Art and the new Mariner series.

Sink: Vortex Single Bowl

Sync-Art Stainless Steel Sinks

Stainless steel sinks are a staple for most homes and commercial kitchens in today's world. They are highly resistant to corrosion, long lasting and withstand rough use. With a tensile strength of up to 250,000 PSI, 304 stainless steel is used in aircraft components, for architectural support and railroads.

All of Cosmos' Sync Art Stainless Steel sinks are economical, made of 304 Stainless Steel, UPC Coded and Corrosion Resistant. Cosmos sinks bear a Universal Product Code verifying each sink is quality inspected for the highest caliber materials, quality and craftsmanship. Cosmos sinks have the highest stainless-steel corrosion resistance on the market today. Cosmos SyncArt also offers sinks in both 16 and 18 gauge with the 16-gauge sinks being more resistant to dents and hence, more durable.

Stainless steel sinks are typically used in high and rough use areas such as professional kitchens - restaurants and bars, chef kitchens at homes, hospitals, etc.

Sink: Barista, Countertop: Silver Mist

Sync-Art Porcelain Sinks

Porcelain Sinks have been manufactured and used for the longest time. Porcelain sinks like tiles are also made from fired clay. They are non-porous which makes this material waterproof without needing a glaze. Porcelain sinks are easy to clean and while dense, are resistant to cracking and chipping.

Cosmos' SyncArt porcelain sinks use premium ingredients including quartz, feldspar, and iron and are fired at over 3,300 degrees Fahrenheit to produce Sync Art's luxurious quality that will endure the test of time. Using an antibacterial glazing technology, the basin surface of our Sync Art sinks is always smooth, bright and clean. These beautiful porcelain sinks are also abrasion and stain resistant and very easy to clean.

The Sync Art porcelain sinks come in various dimensions and colors to suit any design or use requirement including a sink that is ADA compliant. Porcelain sinks are most used in kitchens and bathrooms to compliment the rich countertops and extend an elegant look to the entire space.

Sink: St Clair, Countertop: White Zen

Mariner Sinks

Mariner sinks by Cosmos are the latest addition to its premium product offering.

The Mariner line of sinks are made of porcelain, stainless steel or composite materials. This line was developed and launched to satisfy the design conscious yet practical homeowner in mind that is in search of a more sophisticated look for their creations. The offerings in this line are a perfect balance of contemporary design with functionality built to enhance the beauty of any area.

The Mariner stainless steel sinks are manufactured exclusively with 16-gauge stainless steel to ensure higher durability and wear resistance. They are also fitted with noise deadening pads to reduce the noise produced when items are placed/ dropped in these sinks.

The Mariner porcelain sinks are made of the fired clay just as their tile counterparts but, have been glazed with an anti-bacterial coating to reduce the sustenance of germs. These sinks are made to withstand impact yet, are effortlessly stylish when combined with a beautiful piece of stone.

The Mariner Composite sinks have been a mega hit with every customer that has tried them calling them the survivors. They are made of granite composite giving them the strength to withstand almost any regular day forces and sudden slips. They also boast of a very high stain and crack resistance in addition to being very easy to clean.

Most importantly these sinks have been designed to retain the old-world charm but, fit the bill for modern day needs.

Sink: Orion Farm Sink, Countertop: Soapstone Black

Opulith

Opulith is Cosmos' latest addition to its product lines in 2020. In keeping with the growing trend towards Porcelain products, Cosmos has introduced a range of large format Porcelains aka porcelain slabs.

These porcelain slabs are manufactured with ingredients similar to their tile counterparts but, in dimensions of a 126"x60". With porcelain products of these dimensions, the application is extremely simplified and also reduces the number of breaks that appear in an area. Porcelain products are scratch and stain resistant while being light, durable and affordable.

Cosmos' Opulith offers an exquisite range of porcelain slabs that will accentuate the look and feel of any living space. Porcelain slabs also come in patterns that can be book-matched or laid in sequence just like their natural stone counterparts and has now caught on as the latest trend in decorative products.
